CAREER & TECHNICAL EDUCATION, MED

Become a master teacher in CTE subjects, such as educational leadership, non-formal and adult education, and STEM (Science, Technology, Engineering, and Mathematics).

Continue Your Education While Working

This program is designed for current educators who need the flexibility to continue their own education while working. What you learn during this program can be applied in your own teaching immediately. You will improve your teaching ability and become a highly-skilled educator.

Prepare to Boost Your Career in:

- CTE Teacher, Secondary School
- School and Vocational Counselor
- Education Administrator
- Vocational Education Teacher
- Instructional Coordinator
