

## AVTE Assessments

### Degree/Program

Aviation Management – Aviation  
Operations Emphasis (BA)

### Lead

Amy Monson

## Aviation End-of-Semester Meeting

Date: December 15, 2023 9:00 a.m – 1:00 p.m.

Meeting Lead: Dr. Bruce Miller

### Program Updates:

Shalyn Drake – Drone Certifications

- 10-12 students in the Drone Program, 90% from outreach and concurrent enrollment.
- Plan for 10 classes with UAS prefix for the upcoming year.
- Discuss aligning through USHE and TDTE.
- Explore growth opportunities through outreach and concurrent enrollment.
- Meeting with USBE to align their five courses with ours.
- Doug Miller suggests micro-credentials with incentives and congratulatory papers for course completion.
- Extend incentives statewide.

BW Aggie Drone Academy

- Completed holiday market; January focuses on getting to know drones.
- Public service Police and Fire Drone class in February.
- 1st 4H UAS Camp in January.
- Pushing events to Price due to air quality concerns.
- Repositioned planes to Brigham City; 160 lbs. of goods sent to Navajo Nation.

Aaron Dyches – Accelerated Flight Training

- Brandon is writing for the commercial side.
- Anticipate the Fall 2024 launch for the course pending R401 submission.
- Focus on reducing flight hours from 120 to 40-50 hours.
- Potential cost reduction, excluding international students.
- Proposal to start with 10 students based on FAA pass rates.
- Submitted courses; pending submission of course fees.
- Brigham City airport bid won; working on lease agreements.
- Utilize Brigham City for poor weather conditions.
- University resources support classes in Brigham City.
- Backcountry Santa
- Successfully repositioned planes to Brigham City.
- Transported 160 lbs. of goods for the Navajo Nation.

Helicopters

- Steady growth; spring enrollment lower.
- Acquiring three new helicopters.
- Discovery flight inquiries send to Taylor.

#### Amy Monson – Masters Program Update

- Targeting graduating USU seniors; spring 2023 graduation numbers not yet recouped.
- Spring information session planned.
- \$9000 allocated for recruiting; explore online avenues, newsletters, and alumni highlights.
- Consider Aviation Management for juniors at Hill Airforce Base.
- Offer a 1-credit seminar course.
- Focus on internships, especially in the Logan Campus vicinity.
- Explore partnerships with the industry through ride-along and visits.

#### Randy Chesley – Maintenance Certifications in Price

- New instructor, Myles Miller.
- Record numbers in airframe and powerplant; seeking internships for students.
- Senior Design project underway.
- Satellite PMI approvals in South Carolina.
- Fall 2025 rollout for Maintenance Cert in Price.
- Stacking program into BS program.

#### Pee Wee Winder – Jet Training Program Update

- Modeled after Delta training materials.
- CRJ 700 simulation reaching its lifetime; upgrading to Boeing 737-800 NG Training Platform.
- Aiming for 120 students in JTP by 2025.
- Proposed simulators ready by June/July for Fall 2024.
- Gary Springer/Claudio Acosta – Price Flight Program/Airport Ops Updates
- Enrollment not strong for Spring 2024.
- Pilot lounge approval is needed; growing and running out of space.
- Simulator upgrade planned.
- Meeting with BW and Baron for airport manager review.
- Considerations post-hire: competitive fuel prices, courtesy car, and mountain bikes for customer use.

#### Snack break

- AV 3010 full; potential expansion to a larger room.
- Establish connections between Price and Brigham City.

#### Kaylee Roholt/Lisa Hunsaker – Advising Updates

- Advising load shifts; fixed-wing divisional responsibilities clarified.
- Program numbers: 12 AAS, 60 BS, 15 MAS, 379 fixed-wing, 37 rotorcraft, 6 certs.
- Prerequisite drop scheduled for Dec 29th.

#### Krystin Deschamps and Eric Olsen (Student Affairs Office)– How to Respond to Incidents and Student Misconduct

- Addressing disruptive behavior; the importance of following policies.
- Rise in mental health issues; tackle issues discreetly.
- Procedure for handling students presenting threats.

#### Andreas Wesemann – Promotion Process, Curriculum Committee Items

- Advise against last-minute preparations for promotion.
- Keep track of annual progress for streamlined promotion processes.

#### Chenese Boyle/Aaron Whittle – Assessments

- Emphasize incorporating outcomes in courses.
- Assess outcomes through Canvas assignments.

Bethany Barnes - Business Services

- Ensure that faculty and staff are using the TA/TR procedures appropriately.
- Another friendly reminder to be diligent in turning in P-card receipts as soon as possible.

Mike Logan – Marketing, Outreach & Recruiting

- School Visits, Career Fairs, and Campus Tours going well.
- Update Tri-fold and marketing materials in general
- Looking to work on focusing upon better visibility for the AVTE program at USU E

# Department Update

Tuesday, October 2, 2023

| Aviation Career Fair | Check ins via Handshake |
|----------------------|-------------------------|
| 2018                 | 195                     |
| 2019                 | 246                     |
| 2021                 | 220                     |
| 2022                 | 256                     |
| 2023                 | 322                     |

## 2023 Company Attendance

|                        |

| Skyfish                |
| Alaska Central Express |

June 16, 2023

Per feedback from AAA office, updated Outcomes data to include AVTE Outcomes Standard and Compliance in Curriculum Development and Continuous Improvement statement.

# AAA Feedback

June 13, 2023

Dr. Miller, Aaron and Chenese,

Thank you for the conversation today. I learned more about your programs and am excited for your plan to develop them. I will try to have a goodie bag with a toothbrush or other supplies next time.

From my notes, I had a task of looking into curriculog and its ability to track changes to your courses each year. I actually logged in just now and requested a report for course changes for your department from July 1, 2022 to June 1, 2023 as a test. It said it might take an hour or so but I will let you know what the report looks like and if we think it would be helpful in reviewing the substantive changes you submit each year/semester.

Other recommendations or future tasks that I had down for us to consider (or publish in an assessment report ;- )):

- Consider mapping program learning outcomes with IDEA learning outcomes and identify courses where IDEA could be pre-selected and used as an indirect measurement of program learning. Our office is happy to help.
- Identify any program learning outcomes where identifying a specific measurement that is used to demonstrate mastery can be incorporated to give better insights into program improvement based on instructor, course, student, etc. We identified this may not work on all your learning outcomes, especially some you have adopted an industry standard “good-to-go” or “not-good-to-go” model.
  - E.g. students will demonstrate <insert program learning outcome> by passing <identified assessment artifact or assignment> with a score of meets expectations or higher/>70% on such and such test or in such and such course.
- Add a narrative that explains the “good-to-go” model and why it has been adopted in some areas of measuring student learning to your assessment reports

- Add an “Annual Feedback” button to your websites that discusses input and recommendations you receive from committees and other reviewers external to your department about your assessment plan as well as any discussion your department faculty have about the assessment plan.
- Add the narrative and any corresponding data that shows your own internal discussion and decisions based on the outcome data and as well as any indirect review from your external industry advisors and regulators such as the Airline reps, alumni, FAA about how students are demonstrating mastery of your learning outcomes and how that feedback/data is making changes to your program curriculum teacher development etc. Also include follow-up on past changes and whether or not they worked in this section.
  - E.g. “On Aug. 17 faculty met and reviewed the data and identified female students were performing lower on such and such outcome so we implemented such and such to see if it could help with the learning gap.”
  - E.g. “Feedback from our industry advisors, such as Tom Davis of SkyWest, at our annual event in the spring had a common theme suggesting our students could use more training on outcome #4, so we created an assignment in course whatever that helped student develop more in that area.”
- Show trends over time as you continue to collect data beyond this initial year.
- Reach out to our office for help linking any data you may not have as easy access to.

You may have other notes, but I wanted to share mine and I will send you thoughts on the curriculum report.
