

AVTE Assessments 2022-2023

Assessment data has been collected from Aviation Technology's (AVTE's) Master of Aviation Science degree program. This data was collected, using Canvas outcomes, from the following semesters:

Summer 2022 - Fall 2022 - Spring 2023

Outcomes for this degree were developed by AVTE's graduate faculty. Outcomes were then uploaded into Canvas and faculty embedded those outcomes into each of his/her respective course. Faculty and staff then established specific course objectives in support of the outcomes. Finally, the objectives were used to evaluate whether students met the degree outcomes.

Outcome Standards

To satisfy the program's mastery standard of "Meets Expectations," instructors evaluate students' knowledge and skills in sufficient depth to ensure that the objectives for each course are achieved. This evaluation may include a written knowledge test, an oral test, or a practical application evaluation.

Due to the unique nature of aviation training requirements, it is not feasible to establish all-encompassing outcome standards (such as standardized percentages or practical application standards, etc.) to determine mastery. Instead, objectives are individually determined by each course of instruction to align with and assess outcome mastery.

Compliance in Curriculum Development and Continuous Improvement

Our commitment to excellence and compliance is reflected in our approach to curriculum development and continuous improvement. We ensure that our courses adhere to the guidelines and regulations set forth by the Federal Aviation Administration (FAA). By actively monitoring and staying up to date with FAA requirements, we consistently make necessary adjustments to our curriculum, ensuring that our students receive the most relevant and comprehensive education in the field each semester.

In addition to FAA regulations, we recognize the importance of meeting the evolving needs and expectations of our industry partners. We maintain a collaborative relationship with industry professionals and organizations, regularly seeking their input and feedback. This enables us to adapt and enhance our curriculum to align with the latest industry trends, technologies, and practices. By doing so, we equip our students with the skills and knowledge required to excel in their chosen careers and contribute meaningfully to the aviation industry.

Our commitment to incorporating FAA regulations and industry demands into our curriculum underscores our dedication to providing a high-quality education that prepares students for success in the aviation field.

AVTE's Degree Outcomes

Master of Aviation Science (MAS)

MAS #1: **Gain** proficiency in reading and understanding aviation research.

MAS #2: **Demonstrate** understanding of the history of aviation safety and impact on current developments.

MAS #3: **Utilize** critical thinking in planning, decision making, communication, and assessment for aviation management.

MAS #4: **Demonstrate** ability to **apply** the interrelationship of safety and security to the aviation profession.

| Learning Outcome | % of students who met the outcome | Course | Assignment which was assessed |
|------------------|-----------------------------------|----------------------------|--|
| MAS #1 | 100% | Spring 2023 AV-6760-IO1 | 13.1 Final Copy of Capstone Project Pr |
| MAS #1 | 100% | Spring 2023 AV-6760-IO1 | 8.1 Reflection Assignment |
| MAS #1 | 100% | Spring 2023 AV-6310-IO1 | Assignment #4 |
| MAS #2 | 100% | Spring 2023 AV-6310-IO1 | Final Discussion (Module 5) |
| MAS #3 | | Spring 2023 AV-5150-IO1 XL | Final Presentation: Your Airport |
| MAS #4 | 100% | Spring 2023 AV-6310-IO1 | Evaluation #2 |
| MAS #4 | | Spring 2023 AV-5150-IO1 XL | Final Presentation: Your Airport |
